Trustees of Woodlawn Cemetery. Last Friday of each month.

Trustees of Edgewood Cemetery. Last Monday of each month.

CITY HALL.

MAYOR'S INAUGURAL.

Delivered in Court Room, City Hall Building,
Monday, Jan. 2, 1903.

Gentlemen, Members of the City Councils:—

We have recently become the choice of our fellow citizens to administer the affairs and conduct the public interest of our city for the ensuing two years.

I welcome you upon this day set apart by law, for the commencement of our public duties as representatives of our fellow citizens.

Upon assuming our respective offices there devolves upon us, a duty to perform and we have taken the obligation upon ourselves which imports that we are to give to all subjects brought before us, serious and careful consideration, that we may act intelligently with but one object in view, and that object is, to do right by our constituents in anything and everything which we undertake.

We must strive to promote prosperity, and the comforts of our people; our duties are not personal but representative; that is, we have been placed in positions of trust and honor by our fellow men, and to them are we directly answerable, and for them should we exert our every effort, that we may perform our duties, and fulfill that which is expected of us.

We are not here for our individual pleasure or profit, but to conduct the municipal affairs of this city, so that honesty, economy and wise progression shall contribute to continued development and prosperity; to that end must we devote our time and studies, however inconvenient it may be to ourselves. No man who is placed in a position of responsibility, does his

full duty unless he appreciates that responsibility and appreciates the confidence reposed in him, by those who have chosen him.

We may honestly differ in opinions, but we are all striving for the same common principal. We are the custodians of the peoples' welfare and their finances, and may it be said of us, when our terms of office have expired, that we have in all things acted according to the dictates of our best judgment, with fairness to all and favors to none.

Let us make the resolution then, to abide by the rule that in all things the people shall be first, last and always.

FINANCIAL STATEMENT FOR YEAR 1902.

Resources.

Uncollected taxes, 1900,	.	\$3,091 03
Uncollected taxes, 1901,	.	4,347 29
Uncollected taxes, 1902,	.	49,612 60

Resources,	184,106 40

Net debt,	. . .	\$558,008 39
Net city debt, 1901,	. . .	\$565,594 46
Net city debt, 1902,	. . .	558,008 39

Decrease of debt, . . . \$7,586 07

STREET LIGHTS.

Our contract with the Nashua Light, Heat & Power* company is made and in force.

Our only duty seems to be to satisfy ourselves that we are receiving what we pay for. We should insist upon having lights up to the standard promised us, and that every light paid for, shall be paid for because it has been burning. Lights which do not burn the whole or part of the night should not be paid for.

I suggest that the police department inspect the city's lights and report every light that does not burn. This report should be made to the proper city officials, not as is now done, to the Nashua Light, Heat & Power company.

If our officers are to play the role of inspectors of lights, it should be for the city's benefit, and not for the benefit of the Nashua Light, Heat & Power company.

FIRE DEPARTMENT.

This department is of a value to the city that is often unappreciated.

It may seem expensive when the money outlay is alone considered, but we have a fire department which in discipline and morals is second to none in cities of our population in New England.

Its efficiency is a matter of common knowledge and of course is based upon its discipline. Considering the annual saving to the citizens in property, and in rates of insurance, and considering our immunity from any great disaster by fire, we must feel proud of our department and be convinced that under the wisdom of the fire commissioners, we are enjoying an economical administration in that department, consistent with the benefits we receive.

POLICE DEPARTMENT.

No department is of greater importance than the police department.

Much of the reputation and good name of a city depends upon its police force and under our system of police commissioners, this department has given general satisfaction as regards material, organization and general discipline.

The department as a whole is one of marked ability and efficiency and shows improvement and interest in its work and we can safely have full confidence in our officers.

It is important that the present standard be maintained and any change should not operate to detract from the general qualifications the department now possesses.

The life of a police officer is one of hardship and everything is expected of him. The officers are now held up to strict discipline and duty and while more is expected of them today than in the past, they are receiving the same wages that were paid to officers years ago. I feel that our officers are underpaid and should receive such additional pay as you in your judgment believe will fully compensate them for the services they are called upon to perform.

A strict inspection of the city lights and an accurate report of those which fail to burn made to the proper officers or authorities, would in a great measure compensate the city for any advance in wages you may see fit to grant. It is the rule here as elsewhere, that good men cannot be obtained for small wages and we need the best men obtainable for duty upon our streets, protecting our citizens and our property.

CITY LIBRARY.

The appropriation for the public library is one which does not make a return which can be figured in dollars and cents. The work of our public library is a silent work. Its influence is all for good and increases as years go by. To convince yourself of this fact, you need but take notice of the great number of persons, both young and old, who constantly avail themselves of the privilege of education and recreation afforded them. We should feel gratified at the growth and progress of

HENRI T. LEDOUX,
Member of Board of Public Works for Three Years.

this institution which now requires and is about to occupy the new library building, built in accordance with the generous gift of Mrs. Mary A. Hunt and Miss Mary E. Hunt.

CITY FARM.

I am informed that for the past two years there has been on an average no more than two or three paupers at the farm, and that at the present time there is but one. It is evident that this institution is not a source of revenue to our city, and whether it is from mismanagement or an impossibility I am not able to state. It is true, however, that it is an excellent farm, and the superintendent is well equipped with help who receive no wages, but it never shows a balance in our favor.

I believe in recommending its absolute abolition as a business proposition if it cannot be made to pay, but if it can be made to pay, then I suggest that the administration of its affairs needs a complete and radical change which will be asked at your hands.

HIGHWAYS.

This department is one of the most important that comes under our consideration, both as regards the amount of money expended and the necessity of competent supervision over the work done.

Nothing is more attractive than well kept streets, nothing adds more to the beauty of a city than improved highways, and we ought to have in our city well kept highways and attractive streets.

Money properly expended on our streets is money well invested, but economy is the watchword here, because extravagance or unwarranted expense means that needed improvements and extension of streets must necessarily suffer. We should be ever ready to lay out and extend our streets, whenever it can be safely said that progress in building will compensate us for our outlay; we should use this means to encourage building.

In this connection I may state that a recent enactment of the legislature provides for the appointment of a board of public works, which board shall have jurisdiction over the highways of our city, when we shall have adopted its provisions and made the appointments. I believe it our duty to obey that enactment. I shall do my duty in this respect, by making the appointment, and shall seek for the best available men to fill these positions.

I recommend the abolition of the two offices now held by two street commissioners, and as a substitute therefor, the appointment of one street commissioner with a competent superintendent of each district as now composed, because I can see no necessity or reason why there should be two commissioners and two assistants as presently organized. One commissioner should have the immediate supervision of our streets, and with a competent man in each district to act as foreman or superintendent, we can obtain the desired results as far as our streets are concerned, with a substantial saving to the taxpayers. The duties are not so great but what they can be fulfilled by one man.

I also recommend the termination of that arrangement, whereby each commissioner has heretofore been allowed the sum of one dollar per day for his own private conveyance. There seems to be no reason why this arrangement should exist in favor of these public officers, any more than any other who may have occasion to go from one part of the city to the other, in the performance of the duties of his office.

I am heartily in favor of the introduction of block paving on all streets where the traffic requires it, and a sum of money should be expended each year for this purpose, because it means the most substantial and convenient means of street construction known.

SCHOOLS.

The subject of our public schools is one which has been freely discussed in recent years. They are credited with faults and are equally credited with virtues.

AUGUSTUS W. SHEA,
Member of Board of Public Works for One Year.

The intelligent standing of a community is governed to a great extent by its public schools. Nothing should be done to impair the right of every child to receive the best instruction and training consistent with a reasonable expenditure, controlled by the sound judgment of those who have the matter in charge.

Our schools being simply preparatory to higher education, should not branch out unreasonably into the pursuit of knowledge on specialties only sought by a few, and only benefiting those few.

Public money here as elsewhere, should be expended for general public good, not for the benefit of a few who wish to obtain knowledge of some isolated, special study or science.

We should appropriate money to furnish unstinted opportunities for the young man and woman to acquire a generally useful, beneficial and valuable education, but particular studies sought for by but few, should not be taught at the public expense.

It seems that the present school accommodations are insufficient to meet the demands upon them, and that we must build in the near future school buildings to meet the requirements of our increasing population.

I cannot recommend the building of any addition or annex to the present High school building. The present beauty of this building should not be sacrificed, and not a foot of ground on Spring street should be covered to the detriment of our children who need a play ground.

I also suggest, that in my opinion, the High school should be separate and distinct from the other grades, and that the High school students should be kept separate and distinct from the younger scholars. In this matter we must look to the Board of Education for our information and to them we must look for the best returns from our efforts.

This matter should be decided upon only after the most diligent examination of the circumstances attending it with due regard for the best educational advantages for our children.

Much as I regret to criticise the previous administration, I must state that I believe the heads of departments, have not given to the city that which they would have given, if they were transacting their own private business for profit to themselves.

I especially disown all insinuations of dishonesty, or even a suspicion of dishonesty, but I feel that in many instances there has been a laxity of duty on the part of those in authority.

I cannot sanction the administration of the department to which was entrusted the care of those who had been subject to the different contagious diseases with which we have been afflicted, more or less, during the past two years, and more especially during the past eight months.

Some eight thousand dollars have been paid out through this department during the past year.

I cannot find law or precedent for the arrangement whereby the city physician has been drawing the sum of ten dollars per day for his services in this matter, over and above his salary, and I believe it is illegal.

We should also abolish in every department where we find it, the system now in vogue whereby certain city officers take, and are allowed to take as their own, fees accruing to that particular office. Every city official who is allowed a salary, should have such salary as will compensate him for the work done, and all fees, perquisites and emoluments accruing to his office, should be the property of the city, and turned in with the city money to its treasury.

I shall gladly comply with the ordinance of 1897 relating to all orders for city supplies being signed by the mayor and it will be in force until the end of my term, or until its previous repeal. This ensures knowledge by the mayor of the condition of his city, and the channels through which our money goes, and what we are getting in return, and our record will be open to the inspection of all interested parties at all reasonable times.

The public in general should have an interest in the deliberations of our council, and all ordinances should receive the legal publication in our newspapers, as provided in our city ordinance. This duty has been overlooked in the past, but the people of our city have a right to this information, and honest legislation need not fear the light of publicity.

I also present for your consideration that our city books be audited semi-annually, thus giving us a new basis of calculation, with a shorter term to audit than we now have.

In short, Gentlemen, I do and shall advocate business methods for this business enterprise we have been chosen to manage, and this means nothing but the full performance of our sworn duties.

Proper books, properly and intelligently kept, audited by competent persons are the first consideration ; a positive approval of the rightful committee of each and every expense incurred before payment by the treasurer, and no man should be granted the permission to approve his own account.

Careful buying on the part of the city, with due regard for the necessity of the matter ; open transactions, intelligently understood by those in charge, should be an unfailing factor.

Let us each then, give our best attention and efforts to our undertakings with one common object in view ; our plain duty done, with the positive assurance that we can return to our fellowmen whose interests we have in hand, and receive from them the reward for appreciation for duty done, coupled with with the self gratification that we have been true to our oaths, and faithful public servants.

WILLIAM E. SPALDING,
City Treasurer.

CITY TREASURER'S REPORT.

NASHUA, N. H.

To His Honor, the Mayor, and City Councils of Nashua:—

GENTLEMEN :—I herewith submit the report of the city treasurer for the financial year ending Dec. 31, 1902.

Very respectfully,

WM. E. SPALDING,

City Treasurer.

Dr. Wm. E. Spalding, City Treasurer.

Fire Alarm Telegraph.

This branch of the service is in good condition but will, in the near future, require a larger and more up-to-date machine than the one now in use as the number of boxes have doubled since its installation and has now reached its limit on two of the four circuits.

The outlay required will be, approximately, \$1,500 for a six circuit machine in place of the four circuit machine now in use.

INSTRUCTIONS TO KEY HOLDERS AND CITIZENS.

1. Upon the discovery of a fire, go to the nearest box, turn key in lock, and hold bolt back with key, as it is a spring lock,

pull down the hook as far as it will go ; shut the door. Do not try to remove the key, as it is locked in, and cannot be removed unless by one of the engineers, who will, as soon as convenient, release and return it.

2. All persons giving fire alarms should remain awhile beside the box so as to direct the firemen to the fire.

3. No person will give an alarm for the same fire after the first alarm has been given without an order from an engineer or the officer in command, and the person so ordered will be sure to go to the same box from which the first alarm was given and report to the chief engineer.

4. Never signal for a fire seen at a distance ; never touch a box except to give an alarm of fire ; do not give an alarm for a chimney fire.

5. Never let a key out of your possession unless called for by the chief engineer. If you change your residence or place of business where the keys are kept, return the key to the same officer.

APPARATUS AND HOSE.

The apparatus consists of four Amoskeag steam fire engines, one one-horse hose reel, four two-horse hose wagons, four supply wagons, one hook and ladder truck, one combination chemical and hook and ladder truck, one Babcock chemical engine. All in first class condition.

We have, at present, about 9000 feet of fabric hose in good condition.

PURCHASES.

There has been purchased during the year 1500 feet of fabric hose.

Estimated Value of Property.

Steamer No. 1,	\$3,000 00
Steamer No. 2,	3,000 00
Steamer No. 3,	3,000 00
Steamer No. 4,	4,250 00

THIRTY-SEVENTH ANNUAL REPORT

OF THE

TRUSTEES FOR THE YEAR 1902.

To the City Councils:

GENTLEMEN:—The trustees take pleasure in extending congratulations to your honorable body whose term of office covers the semi-centennial of our municipality.

Among the marks of progress during this term of years the organization and maintenance of our free public library occupies a conspicuous place as one that will endure and increase in usefulness as the years go by.

It had an enthusiastic inception, has had a generous support and has met, as we believe, in a satisfactory manner the expectations of its promoters.

The cost of maintenance has been cheerfully granted by your predecessors in office, and is a gratifying endorsement of the work of those who have had the responsibility and the guidance of its affairs. It is especially so to the board of trustees who serve for no other compensation than is found in such appreciation and the belief that they are aiding a work of inestimable value for this community and look for no pecuniary reward.

What the multiplied manufacturing industries have done, and are doing, for the material growth and prosperity of our city, the library is doing in its appropriate sphere as the hand-

maid of the schools and churches, and the various clubs and associations whose object is the promotion of intelligence and morality from whence largely comes good citizenship.

The time has come when in all parts of our broad domain the free public library is making a marvelous growth so that the last decade marks greater progress and a firmer hold upon the masses than in any quarter of a century that preceded it. It meets the desire for an education among classes that had very little or no ambition to attain in the years that have gone. It comes to the aid of the laborer and the mechanic whose scanty hours for such a purpose afforded very meagre opportunities. The young man or young woman with a thirst for knowledge can find here the means of self education which in these days assumes an unwonted popularity. The teacher with limited private library and small means for enlargement finds in it a most acceptable aid. The student in all the varied departments of literature, philosophy and science has the means of an education whose value is beyond computation. Such facilities and results require no argument for a generous and hearty support.

We regret that we are not able to report to you our removal and installment in the new library building as suggested in our report of last year. But the work of completion is now moving along in a manner that gives promise of readiness before many weeks are added to the long wait since the gift was made. The location is conspicuous and very accessible and we believe will afford gratifying facilities for serving its increasing and appreciative patrons.

The accompanying report of the treasurer furnishes information relative to appropriation and minor receipts and the various lines of disbursements which have been kept within the prescribed bounds.

In the report of the librarian may be found such details as may be of interest and comparison with other libraries of the same magnitude.

We have been kindly remembered in the gifts of desirable books and pamphlets for which we are very grateful.

In behalf of the trustees.

VIRGIL C. GILMAN,

Secretary.

Auditor's Certificate.

I have examined the itemized account of the treasurer for year ending December 31, 1902, and find the additions correct and the payments properly vouched.

G. C. SHATTUCK, *Auditor.*

Nashua, January 27, 1903.

LIBRARIAN'S REPORT.

To the Trustees of Nashua Public Library:

GENTLEMEN :—At the close of the year 1902, I have again the honor of presenting to you, the annual report of the librarian.

The number of books in the library, at the time of the last report, was 21,289. There have been added this year, by purchase 706, by binding periodicals 104, and by gift 457. After deducting worn books, withdrawn from circulation, and those burned that have been in houses, where there were contagious diseases, there remain 22,504.

In the purchase of books, our new library has been considered. New encyclopædias have been bought and other books that are of value for the reference library. Duplicate copies of magazines have been bound for the reading room. The children's room has also been borne in mind.

The library has been open every week day except public holidays. The number of volumes given out, during the year, has been 63,082, rather less than last year. There are three reasons to account for this. Many have become subscribers to "The Book Lovers" or "Tabbard Inn" libraries. Others desire only the latest and most advertised books. If a sufficient number of copies of such books were bought to satisfy the demand, little money would be left to purchase books of a more permanent value, and after a time the shelves would

be full of uncalled for books. Some fear that the contagious diseases, so prevalent this fall and winter, may be carried in the books of the library. This fear is groundless as the health officer sends to the library the names of persons ill with any contagious disease and if books from the library are in their homes they cannot be returned.

The charging system has been changed, this year, to one used and approved by many of the best libraries. Patrons no longer use cards and the method of giving out the books is more expeditious. That this change has been accomplished with the expenditure of less than five dollars for extra help, shows the efficiency of the library corps, as in each book a date and card slip was pasted, the book number written on card slip and card, also the patron's names on one and often times on two card pockets.

It is to be regretted that the bulletins which have been issued, monthly, for the past two years, have been discontinued. These have been free to the public, and were printed by a Boston firm who no longer care to publish them. This year we intend to have quarterly bulletins for which a nominal price will be charged.

The number of patrons added this year are 514.

The reading room has been open every day except legal holidays. The visitors counted have been 18,112, this does not give the full number as many come and go without being noticed. From the circulating department 1,389 books were drawn for use in the reference room. In our new library the children's room will take from the reading room a disturbing element, and much can be done to interest and instruct the children.

It is to be hoped that a generous appropriation will be made this year, as it will be needed to make our new library as complete in its different departments as it should be.

Respectfully submitted,

HARRIET CROMBIE, *Librarian.*

IVORY C. EATON,
City Solicitor.

CITY SOLICITOR'S REPORT.

To His Honor the Mayor, and the City Councils of the City of Nashua:

GENTLEMEN :—I respectfully submit a report comprising the period from Jan. 1, 1902 to Dec. 31, 1902.

At the former date the following cases were pending against the city :

1. Parker vs. Nashua. Petition for an abatement of taxes on real estate situate on the corner of Temple and Court street. Referred to a commissioner. Petition filed Dec. 21, 1896.

2. C. R. Pease Housefurnishing Co. vs. Nashua. Petitions for abatement of taxes on stock in trade and real estate situate on Pearl street. One petition referred to a commissioner.

3. Greeley vs. Nashua. An appeal from an assessment of damages for land taken in widening Buck street. Referred to a commissioner. Entered March term, 1887.

4. C. R. Pease Housefurnishing Co. vs. Nashua. A petition for an abatement of taxes on stock in trade and real estate situate on Pearl street.

5. Renaud vs. Nashua. Claim for services alleged to have been performed at request of the Overseer of the Poor.

6. Houle vs. Nashua. Suit for \$5,000. Damages for personal injury occasioned by a collision on Tyler street and falling over an embankment.

The case of Renaud vs. Nashua was tried by court and judgment given for the city.

The case of Houle vs. Nashua, was tried before a jury, and verdict rendered for the city.

During the year the following suits have been brought :

Lund vs. Nashua. Suit for \$5,000 damages for injury caused to the person of plaintiff by driving over an embankment on Dunstable road. Trial by jury. Damages awarded plaintiff in the sum of \$575.

The following suits brought during the current year are still pending :

Nashua Card and Glazed Paper Co. vs. Nashua. Petition for abatement of taxes on plant on Franklin street.

Labine vs. Nashua. Injunction to restrain the city from widening East Hollis street.

Very respectfully,

HARRY P. GREELEY, *City Solicitor.*

CITY FARM.

REPORT OF THE COMMITTEE

OF THE

CITY FARM AND HOUSE OF CORRECTION

OF THE

CITY OF NASHUA.

1902.

To the Mayor and City Councils:

The committee of City Farm and House of Correction hereby submit their annual report for the year 1902:

Inventory, December 1902,	.	.	\$11,603 60	
Inventory, December 1901,	.	.	11,577 75	
				<hr/>
Gain in inventory,	.	.	.	\$25 85
Received from labor on street,	.		\$554 90	
garbage teams,	.		990 00	
snow plowing and				
sand on streets,	.		32 15	
farm produce, labor,				
etc.,	.	.	2,565 75	
loss on property sold				
street department,			270 45	4,413 25
				<hr/>
				\$4,439 10
				<hr/>
Appropriation 1902,	.	.	\$9,000 00	
Paid city treasurer,	.		\$3,970 30	
Cash paid out,	.	.	172 50	

Gain in inventory, .	\$25 85	
Loss on property sold		
street department, .	270 45	4,439 10
Net cost of running the farm, .		<u>\$4,560 90</u>

The farm has had an average of about the same number of people as in former years. The plan of keeping the city teams at the farm has proved of doubtful policy and it was believed a saving could be made to the city by keeping at the farm only sufficient teams to do the farm work. While this change may be productive of an increased expense in running the farm, the committee believe it will be of advantage to the city by lessening the expense of the street department and also an advantage to the farm.

The management of the farm under the care of Mr. Wheeler as superintendent and Mrs. Wheeler as matron, shows careful and faithful attention to the duties of their positions.

W. C. SMALL, *Clerk of the Committee.*

FRED A. WHEELER,
Superintendent of City Farm.

MRS. CORA R. WHEELER,
Matron of City Farm.

REPORT OF THE BOARD OF HEALTH FOR 1902.

To His Honor the Mayor, and the City Councils:

The report of the Board of Health for the year 1902 is herewith submitted:

The number of cases of contagious diseases is reported as follows; Diphtheria, 185; scarlet fever, 17; measles, 8; typhoid fever 6, and small pox 128. Over 5,000 people have been vaccinated under supervision of this board.

All complaints in regard to public nuisances, which have come under this department, have received prompt and impartial attention.

The epidemic of small pox which occurred the last of the year made it advisable that the children in certain districts be kept from school for a short period.

Owing to the large number of cases of small pox in the city during the last year the expenditure of money by the department has been very large, but, most reasonable, when compared with other places which have been visited by the scourge, and the vast amount of work necessary in stopping the epidemic. All bills have been promptly paid except about \$875 which still remains unpaid.

Respectfully submitted,

C. E. CONGDON,

Chairman of the Board of Health.

CHARLES E. CONGDON,
City Physician.

REPORT OF CITY PHYSICIAN.

To His Honor the Mayor, and the City Councils:

The City Physician's report for the year 1902 is herewith submitted :

All calls from the Overseer of the Poor, the City Farm and the Police Department have received prompt and careful attention.

There have been two births and six deaths.

Respectfully submitted,

C. E. CONGDON, *City Physician.*

ANNUAL REPORT

OF THE

Trustees of Woodlawn Cemetery.

To the Honorable City Councils of the City of Nashua, N. H.:

GENTLEMEN:—The trustees of Woodlawn Cemetery, respectfully submit the following as their annual report:

The principal improvements the past year have been the filling and grading, in and around the grove in front of the chapel, and the erection of a rustic fountain.

The greenhouse erected in 1901, has proved a success, and to quite an extent supplied the demand of the lot owners for flowers, and saved considerable expense for the general adornment of the cemetery.

A beginning has been made in the clearing up of the wood lot at the west end of the cemetery, which was lately added to the grounds.

Forty lots have been re-graded, and four laid down, or graded anew.

Fifty sunken graves have been refilled.

Twenty headstones which had fallen, have been reset.

Twenty-four Bonds for Perpetual Care, have been issued for the aggregate amount of \$2,650.

Thirteen deeds have been given for lots sold.

One hundred and thirty-six interments have been made as follows: Sixty-six resident adults, forty-one out-of-town adults, twenty-two children and seven stillborns.

Removals to other cemeteries, one.

Nine soldiers have been buried, making the present total number of soldiers' graves, two hundred and sixty-six.

Records of all meetings have been made.

Perpetual Care Fund.

ANNUAL REPORT

OF THE

Trustees of Edgewood Cemetery.

To the Honorable Mayor and City Councils:

The trustees of Edgewood Cemetery submit their tenth annual report, covering the year 1902, as follows :

The cemetery grounds have been kept in proper condition, mowing, watering and reseeding of lots, and suitable work on paths and drives having been done as was necessary.

A portion of the cemetery lying at the corner of Amherst street and Edgewood avenue, thus very prominently situated, which we have heretofore been unable to improve, has been graded and seeded. We hope to complete the improvements by suitably surfacing the paths, placing shrubbery, and in other minor details during the coming season. This newly improved part contains some seventy lots, and the work done will add much to the general appearance of the cemetery.

The office building has been enlarged by the addition of a tool room,—an improvement which had become a necessity. Fences and settees have been kept in such condition as to present a proper appearance and to withstand the weather.

The trustees have held regular meetings, and all matters pertaining to the cemetery have received careful consideration.

The interments for the year have been : Adults, sixty-five ; children, 4 ; total, sixty-nine ; of which five were removals from other cemeteries. The number of interments include eight veterans of the Civil War, and these graves have been marked

by the regulation shield. Requisition has been made of the United States Government for proper stone markers, and these will be set as soon as possible. There now rests in this cemetery one soldier of the Revolution, five of the War of 1812, two of the Mexican War and seventy-four of the Civil War, the graves of all of whom are properly marked, recorded and cared for, except as herein noted.

During the year we have received payment for eighteen lots and have issued deeds therefor. Three lots have been placed under perpetual care.

The financial affairs of the board are shown by the following exhibits.

REPORT

OF THE

Trustees of Suburban Cemeteries.

To His Honor the Mayor, and the Honorable City Councils:

GENTLEMEN:—The secretary of the board of trustees of Suburban Cemeteries hereby submits his sixth annual report :

Condition of Cemeteries.

The usual care and attention has been given to the Gilson and Hillside cemeteries. A lack of funds, however, has prevented many desired improvements.

At the Evergreen cemetery the long contemplated improvements have been begun, and there are now being prepared a number of exceptionally fine burial lots. And this work the trustees hope to continue the coming season.

At the Old South cemetery, has occurred a case of disecration which filled not only the minds of the trustees with indignation and horror but also the general public. Much credit is due the police officials for their prompt action in capturing and punishing to the full extent of the law, the perpetrators of the deed. The damages have been repaired as far as possible.

Once again, the trustees would urge upon the city councils the necessity of a liberal appropriation to keep green the resting places of our forefathers within these sacred grounds.

Interments.

During the year the following interments have been made :
One in the Gilson cemetery, two in the Hillside cemetery,
two in the Evergreen cemetery, two in Old South cemetery,
seven in all.

Finance.

Cash in hand of treasurer, . . .	\$11 76

LEVI W. GOODRICH,

Secretary of the Board of Suburban Cemeteries.

December 30, 1902.

SOLDIERS' MONUMENT.

REPORT OF PARK COMMISSIONERS.

To the City Councils of the City of Nashua:

Respectfully represents the Park Commissioners of said city who submit the following as their annual report.

The small appropriation annually granted to this board has not warranted any extended work in the developement and planting of the North Common in accordance with the plans secured some years ago. In fact nothing could be done along these lines with that sum alone at our command.

We were met with the problem of caring for the North and South Commons, Railroad, Abbot, Stark and Orange Squares, and two or three smaller plats, and the Greeley farm property on the annual appropriation of \$650.

Confronted with such a proposition one can readily understand that this board could do but little other than the temporary care and maintenance of the properties entrusted to our charge. We now submit a brief report of our doings with recommendations as to future wants.

The South Common requires fencing to prevent the driving of teams over and across the same, and the fence originally built has become through lapse of time in a badly dilapidated condition and should be replaced by a new one in the immediate future. The soil of this common is very light and furnishes but little of nourishment for the trees planted there. A new cross walk was put in at an expense of over \$200. The band stand erected thereon has been a subject of attack for marauders, which has caused an expenditure too large to warrant its retention if no protection from such can be given. The North Common fence is rapidly falling and going to pieces,

and while there does not exist the same temptation to drive across the whole of this, and such driving would not cause so much damage, yet, it should be enclosed with a neat and substantial fence on the Amherst and Manchester street sides ; in fact one part or portion without a fence should not be considered strictly safe.

The city, prior to the creation of the board, having located the Amherst street schoolhouse on the westerly part or portion of this common, that part or portion serves as a play ground for the children of the several schools. When the plan was made, that feature was taken into consideration and provided for. The section lying westerly and northwesterly of the school building has been used in the past as a dumping ground for ashes and other matter collected by the city teams ; while that portion between Sargent's avenue and Amherst street and near their intersection was lower than either of said streets, and having no artificial drainage, served as a pond hole and basin for the surface water on the sides. To remedy this and at the same time to work in accordance with the plan that portion was filled, and rough graded so that some semblance of its final appearance is presented. In this work some \$350 or more has been expended, effecting not only a more presentable place but rendering the same more useful and freer from unsanitary defects. Quite a quantity of loaming is further required as well as the building of the driveway to the school house, which is a necessity, and the final grading of the part under treatment.

The small squares were mown and watered when needed and we submit were as well kept and presented as favorable appearance as the surrounding grounds of private parties. That these efforts were appreciated was evidenced by the large number of our people who visited, and enjoyed the little openings thus presented. We submit that there are too few of such in and about our city. We have no recommendations to make as to changes in the treatment of these smaller squares except to keep in repair the grass, grounds and cross walks and furnish

more seats for use thereon. Fifty or one hundred new lawn seats such as are now in use, could be used to great advantage on these squares ; at the North and South Common and at the Greeley farm.

The Greeley farm buildings and some five or six acres on the west side of Concord road have been let to Mr. J. F. Watson, while that part or portion on the east side of this road excepting a portion reserved by this board for a tree nursery has been let to Mr. Alfred Chase. The orchard and wooded part lying westerly of the buildings, the board has retained for public use.

The nursery lying just east of the knoll on the east side of the road was established some four years ago, and has been used for growing evergreen and some varieties of deciduous trees, such being purchased at a very low price as small seedlings and grown for permanent planting, when the appropriations would warrant. The board has now a fine stock in certain varieties, and the same should be removed and planted in their permanent positions within a very few years.

The board during the year 1902 laid out and built a driveway beginning on the westerly side of Concord road and extending westerly through the orchard to the growth and through that to the extreme westerly part of the farm, so that pleasure teams may be safely driven on a good roadway through this part of the farm even to the full extent of the farm. Along this driveway and through the open a planting of trees for shade has been made. Some of the evergreens in the nursery requiring transplanting and removal were temporarily planted in the orchard, subject however to removal when needed elsewhere.

The growth west of the orchard to the extent of about 50 acres has been carefully pruned and cleared up, some of the trees cut and removed, the brush and leaves destroyed and the risk from fire greatly diminished and the remaining trees and shrubs greatly benefited thereby. From such clearing up and cutting away nearly \$200 worth of wood was sold, delivered

and paid for. Further work and labor is urgently needed along the same lines for the betterment of the growth and the decrease of fire risk.

The buildings are in fair repair and it has been the aim of the board not to allow such to deteriorate or remain out of repair. A fence between the farm buildings and the orchard lot, and one extending along Concord road from the barn northerly to the north line is urgently needed and should be provided for in the coming appropriation.

That part reserved by the board and not let, has been kept open for the public ; but little could be done other than furnishing seats, keeping the grass cut and the grounds generally clean. That these limited efforts were appreciated was shown by the large number visiting this farm during the warm season.

The laying out of Thornton avenue on the south of that portion west of Concord road will entail an expense to properly grade the contiguous ground and finish the same that should be considered in making the appropriation for the season of 1903. The same should be done by the city in connection with the building of this avenue, at the expense of the city direct, but subject to the plans of this board.

The knoll at the north end of that portion lying on the easterly side of Concord road amounting to some three acres, where are found evidences of an ancient burying ground, will be cleaned up and the underbrush removed this winter, to do which, the small balance shown as of December 31, of \$91.13 will be used and applied.

The board is unanimous in the belief that so long as the several commons and squares are owned and held for the purposes of such they should not only be well cared for but should be worked, plantings made and the same be developed and finished in accordance with well defined plans. That such would be fully appreciated and enjoyed by the people, there is no question. To do this there should be an annual appropriation of not less than \$5,000. That the city can afford such an

expenditure is a question gravely tinged with doubt in the minds of this board. That there cannot be too many small "greens" throughout the city is not questionable. Such should be encouraged and established. A part of the board on the other hand do question the advisability of retaining the North and South commons in their present size, but would retain a smaller part of the two, sell and dispose of the balance of the two and take the proceeds of such sales and apply first to the purchase of a suitable tract in the south part of the city for a common or park, and the balance thereof to the laying out, planting and developement of the two parks viz : the Greeley farm and the South park purchased as aforesaid. If such were to be done it should be entered into in the early future, that the present generation might be benefitted and the permanent work entered into.

We submit herewith a financial statement of the receipts by the treasurer and expenditures made under the direction of the board.

All of which is respectfully submitted.

CHARLES W. HOITT,
HENRY H. DAVIS,
CHARLES W. MORRILL,
Park Commissioners.

ORDINANCES
AND
RESOLUTIONS

Passed during the year

1902.

Resolutions and Ordinances.

RESOLUTION.

ADOPTING JOINT RULES AND FIXING THE TIME FOR HOLD-
ING REGULAR MEETINGS.

That the joint rules of the City Councils for 1901 be and the same are adopted for 1902 until otherwise ordered, and the time for holding the regular meetings shall be on the second and fourth Thursdays of each month at seven o'clock and thirty minutes p. m.

Passed Jan. 1, 1902.

RESOLUTION.

AUTHORIZING THE MAYOR AND CITY TREASURER TO HIRE
MONEY.

That the mayor and city treasurer for the time being are hereby authorized to hire money to pay the current expenses of the several departments on any outstanding notes, city script, certificates of stock, bonds and other evidences of debt of the city becoming due, and to give promissory notes of the city therefor.

Passed Jan. 1, 1902.

RESOLUTION.

RELATIVE TO STREET LIGHTING.

That a special committee consisting of His Honor, Mayor Taylor, Aldermen Lintott and Broderick and Councilmen Small, Keeley and Burke shall be empowered and instructed to wit :

That said committee interview the management of the Boston and Northern Street Railway Company, lessees of the Nashua Street Railway Company, and request a bid from them for supplying current for electric arc lights in the City of Nashua for the purpose of street lighting, also

That the said committee be directed to make further inquiries and to advertise for and solicit bids for lighting the streets.

That the said committee be allowed compensation for necessary expenses and such other expenditures as the mayor may approve of before incurred.

Passed Feb. 27, 1902.

RESOLUTION.

AUTHORIZING THE CITY SOLICITOR TO RECEIVE THE NEW HAMPSHIRE REPORTS AND REQUIRING HIM TO ACCOUNT FOR THE SAME.

That the city solicitor be and hereby is authorized to receive the New Hampshire Reports now in the city clerk's office giving for the same a receipt for their proper use and safe return at the expiration of his term of office : said receipt to be filed with the city clerk.

Passed March 13, 1902.

RESOLUTION.

MAKING APPROPRIATIONS FOR 1902.

That in accordance with the vote of the City Councils in joint convention assembled this day the following sums are hereby appropriated for the various departments :

Armory expenses,	\$800 00
Assessor's department,	3,300 00
Band concerts,	200 00
Board of Health,	475 00
Cemetery, Edgewood,	1,200 00

				<hr/>
				\$247,645 16
				<hr/>

On motion of Alderman Finning it was voted to raise \$206,000 by taxation and the remainder to be paid from any balance in the treasury.

Passed March 27, 1902.

RESOLUTION.

EXEMPTING FROM TAXATION THE PROPERTY OF THE NASHUA HOSPITAL ASSOCIATION.

That the property of the Nashua Hospital Association of Nashua, N. H., be and hereby is exempt from taxation from and after March 31, 1902 until such time as the City Councils of Nashua shall otherwise order by vote.

Passed April 24, 1902.

RESOLUTION.

EMPOWERING AND AUTHORIZING THE COMMITTEE TO MAKE STREET LIGHTING CONTRACT.

That the special committee on electric lighting is hereby empowered and authorized to make a contract with the Nash-

ua Light, Heat & Power Company, to light the streets of the City of Nashua on the best terms possible for the City of Nashua. The contract to be for a term of years not exceeding ten and at a price not exceeding one hundred dollars for each arc light and not exceeding thirty dollars for each incandescent light. The lights to be the new enclosed arc.

Passed May 8, 1902.

RESOLUTION.

IN RELATION TO THE TIME FOR THE PAYMENT OF POLL
TAXES.

That the time for the payment of poll taxes in the City of Nashua shall be on or before September first, 1902, and if such tax shall then be unpaid the collector is directed to proceed in the collection of the same according to Sec. 19, Chap. 60 of the Public Statutes of the State of New Hampshire.

Passed June 12, 1902.

RESOLUTION.

APPROPRIATING MONEY FOR THE OBSERVANCE OF OLD HOME
WEEK.

That the sum of three hundred dollars be and hereby is appropriated for the purpose of observing Old Home Week in the City of Nashua, under the supervision of a committee appointed by the Board of Mayor and Aldermen.

Passed June 26, 1902.

RESOLUTION.

OMITTING THE SECOND REGULAR MEETING.

That the second regular meeting of the City Councils be omitted during the months of July, August and September A. D., 1902.

Passed June 26, 1902.

ORDINANCE.

AMENDING SECTION 9 OF CHAPTER 31 OF THE CITY ORDINANCES.

That section 9 of chapter 31 be amended by striking out the word Tuesday of the second line and adding the word Thursday. And adding the word one-half in the third line; and striking out the words "overseers of the poor," in the sixth and tenth lines and the words "street commissioners" in the seventh and eleventh lines. So that the section so amended shall read as follows:

The City Councils shall meet annually in convention on the Thursday following the Tuesday next after the first Monday in November, at seven and one-half o'clock in the evening; and the city clerk having entered upon the record the number of votes given in each ward, for every person voted for as mayor, all persons voted for as assessors and board of education, shall lay before the convention the returns of such votes, who shall examine the same and declare the persons who have the largest number of votes, to be elected mayor, assessors and board of education, respectively, and cause them to be notified of their election.

Passed Oct. 23, 1902.

RESOLUTION.

CHANGING THE DATE OF THE NEXT REGULAR MEETING.

That the date of the next regular meeting be changed from Thursday, November 27, at 7:30 o'clock to Friday, November 28, at 7:30 o'clock in the afternoon.

Passed Nov. 13, 1902.

RESOLUTION.

SPECIAL APPROPRIATION FOR CONTAGIOUS DISEASES.

That the sum of five thousand dollars (\$5,000) be and hereby is appropriated for contagious diseases, the same to be taken from the funds not otherwise expended.

Passed Dec. 11, 1902.

RESOLUTION.

CHANGING THE TIME OF NEXT REGULAR MEETING.

That the rules be so far suspended as to allow the next regular meeting, which would be held December 25, be dispensed with, and that a special meeting be held on Friday evening, December 26, at 7:30 o'clock.

Passed Dec. 11, 1902.

JAMES H. FASSETT,
Supt. of Schools.

THIRTY-SIXTH ANNUAL REPORT

OF THE

BOARD OF EDUCATION,

AND

SUPERINTENDENT OF SCHOOLS,

OF THE

CITY OF NASHUA, N. H.,

FOR THE YEAR 1902.

BOARD OF EDUCATION.

OFFICE OF THE CLERK.

NASHUA, N. H., Jan. 30, 1903.

At the regular meeting of the Board of Education, Mr. James H. Fassett, Superintendent, made his annual report for the year 1902. The board voted to accept the report and the committee on printing was instructed to have three hundred and fifty of the same printed.

JOHN H. VICKERY,
Clerk of Board of Education.

BOARD OF EDUCATION, CITY OF NASHUA.

ORGANIZED FOR THE YEAR 1903.

EDWARD E. PARKER, President.

JOHN H. VICKERY, Clerk.

MEMBERS.

TERM EXPIRES DECEMBER 31, 1904.

Chas. S. Collins,	Charlesmont, Lowell Road,	Agriculturist.

DIRECTOR OF MUSIC.

E. G. Hood. Residence, 11 Shattuck Street.

DIRECTOR OF DRAWING.

Elizabeth Buckingham. Residence, 16 Granite Street.

SUPERINTENDENT'S REPORT.

Gentlemen of the Board of Education:—

I beg to submit the following report, the thirty-sixth of its series.

There are but few things which it seems needful to touch upon in this report. During the past year there has been little or no change in the general management of the schools. In spite of the prevalence of contagious diseases there have been few cases of actual contagion among the school children and considering all the circumstances, the attendance has been remarkably good. I can speak only in commendation concerning the work of the corp of teachers during the past year. They have labored conscientiously and well, not only for the betterment of their pupils educationally but also toward the upbuilding of their moral character.

I believe the one great need in the education of today is a more wide spread understanding of what a public school system should comprehend. It is not sufficient that the schools should educate the minds of the children through the question and answer method alone, however valuable that method may be in itself, but, as the vocations of men become more and more specialized and hence more and more exacting in their requirements for this specialization, the schools must meet the requirements for these changed conditions and must offer to their young men and women a preparation equal to the demands of the business world.

While I have no intention to decry the presence of the so-called culture studies, and I think I appreciate fully their importance, yet the fact must be faced that the question which our boys and girls must answer is not, "How much do you know?" but, "What can you do?" and if we fail to recognize this demand the children are graduated from our schools only half equipped for the strenuous life to follow.

The course of education in our public schools extends through thirteen years of the child's life and in this course the same general trend or character of training is pursued, and I insist that, according to the ideals which we have set for ourselves, or rather which tradition has set for us, good and thorough work is accomplished. The question arises, however, whether our ideals are not too narrow and exclusive and whether a portion of these thirteen years might not be used to a better advantage along lines which would have a more direct bearing on the actual life work of the pupil. Is it not true that the school curriculum has tended too far towards fitting a child for a passive and sedentary rather than an active and laborious life. The child is taught the dignity of labor from the text book, but in the school room he is given little chance for the application of the principle. It should be recognized that although ninety per cent. of the pupils must enter upon some work where manual labor is an absolute necessity for bread winning, yet in our schools we ignore this fact almost entirely.

A complete solution of the problem is impossible, but it is evident it must be worked out along the following lines, namely:—domestic science, including cooking and sewing for the girls, and manual training, including mechanical drawing and the working in wood and metal for the boys. The more carefully and completely the above idea is incorporated into the school system, the more direct and lasting will be its results, particularly to a city like our own dependent upon its manufactures for its existence. This is not an imaginative scheme, theoretical and untried, for many of the most progressive manufacturing cities have for years seen the need of this manual training department in their public schools and have provided liberally towards its support. Today America is far behind most of the countries of Europe. Germany and France in particular have far outclassed us in their recognition of the necessity for the skillful training of young men in the mechanic arts. The following quotation from the report of our consul at Bremen indicates to some extent how far this training is carried in Germany. "The consular reports of late years contain a

vast amount of information on the subject of technical and industrial schools in Europe, and clearly show that Germany easily takes the lead in this line, by annually appropriating large sums of money for instruction in almost every art and industry. It is generally recognized that commercial progress throughout Germany depends largely upon the condition of technical education. Outside of the many schools for agriculture and commerce the system for special schools for other purposes is wonderfully complete. The tailors, the painters, the shoemakers, the bakers, the smiths, the brewers, the butchers ; each trade has its schools for theoretical and practical training."

While it is not possible for us to emulate Germany in the completeness of its technical education, yet the above quotation shows clearly what must be the trend of our education in the future. Since with the admitted superiority of the American youth in inventive ability, it is only necessary to give him the proper technical education in order to place him far in advance of his future competitors. Nashua, as a city devoted to manufacturing interests, cannot afford to ignore this intensely practical and common sense department of education.

Along this same line, and a department which should be considered with the manual training, is a complete and well equipped commercial course. We have already accomplished something in this department by introducing the more thorough course of book-keeping in our ninth grades, but this is only a beginning and needs to be supplemented by several years of careful training. It needs no protracted argument on my part to prove that there is a need for a department of this kind in our city. The need has already expressed itself in a most practical way by the establishment and maintenance of a Nashua Commercial College, a college which I have no reason to doubt is being well conducted. The fact remains, however, that here is a school, maintained by tuition from its pupils, which points clearly to a deficiency in our public school curriculum, for why should a boy who wishes a course in stenography be obliged to pay for such a course out of his private

means, while another boy who wishes for a course in Greek History obtains his at the public expense.

It has often been said that a commercial course in the High School could not be made to offer an equivalent in its educational requirements to the regular academic courses. The committee of the department of business education of the National Educational Association in its report on the proper course of study for Commercial colleges has answered this statement so completely that it seems well to quote a portion of the report in this place.

“Whatever else may be said of the business course curriculum, there are perhaps, no other schools that possess a course of study the several branches of which are so unified and correlated.

It has for the foundation, book-keeping, which requires a knowledge of arithmetic, in order that the computation necessary to its conduct may be performed with accuracy and despatch.

The book-keeper who does not know the legal rules governing business transactions and who does not understand the penalties for their violations would certainly be unfit to manage the affairs of a modern business office. Therefore no one can lay claim to the title of book-keeper without a reasonably accurate knowledge of commercial law.

Further, book-keeping as an art depends largely upon good hand writing and thus the third element in the course of study is brought in close connection with the branches already named.

Again, book-keeping as a record of business transactions is closely allied to business correspondence which requires a knowledge of English, including grammar, spelling and composition.

Since the introduction of the typewriter into the business house no one having any considerable amount of correspondence can dispense with its use, hence shorthand and type-writing have been added to the commercial course.

As the work of the business correspondence and amanuensis requires accuracy and close discrimination, punctuation as-

sumes the importance of a separate branch of study, and some knowledge, at least, of rhetoric becomes necessary.

To enforce and fix in the student's mind the principles of book-keeping, and to assist in giving him a knowledge of business methods and customs a course in business practice has been introduced.

Inasmuch as the education of a business man is not complete without the ability to stand before his peers in public and express his views, public speaking becomes a branch of no little importance.

A knowledge of the laws relating to production, distribution, and consumption is necessary to an understanding of the facts of commerce in their true light and to a correct view of their relations to each other. A place for economics must therefore be found in the business course.

A course also of business ethics and civil government should be given a place in the curriculum of the business school."

A brief examination of the above will clearly indicate that the curriculum of a business college need be neither narrow nor restricted. There is ample scope for a thorough four years' drill for any young man or woman who intends to fit himself for a business life.

This whole matter of practical training for the children of the people is one worthy of careful consideration. The schools primarily are maintained to furnish good citizenship to the state. There is no denying the fact that with the present course of studies as pursued today a majority of the children cannot be held in school much beyond the sixth year, while in the towns offering courses in mechanical training and kindred subjects the school life of a child has been materially increased. If this question were clearly understood by the citizens at large I believe there would be a general uprising with a demand for more practical education of the youth.

In conclusion I wish to acknowledge the uniform courtesy and fairness of the Board of Education as a body and as individuals.

Respectfully submitted,

JAMES H. FASSETT.

E. G. HOOD,
Director of Music.

REPORT OF THE DIRECTOR OF MUSIC.

"And the night shall be filled with music
And the cares that infest the day,
Shall fold their tents, like the Arabs,
And as silently steal away."

NASHUA, N. H., January 1, 1903.

To Mr. James H. Fassett, Superintendent of Schools:—

DEAR SIR :—The sixth annual report of the musical department of the public schools of Nashua under the supervision of the present director briefly enumerates what has been endeavored, and what has actually been accomplished during these six years. The highest ideal has constantly been our motto, but like the horizon, as we approach it recedes to undreamed of glories.

If the study of music in the public schools is to achieve the greatest possible success it must be carried on in a practical way, with a well defined purpose, yet striving toward the goal of true ideals. The course must be untrammelled by the fallacious eagerness to make the study in each grade "the end" in lieu of the "means to the end," the idea that each grade must do a certain per cent. of so many pages of a book, or acquire the ability to sing so many "show pieces" for the delectation of parents or the entertainment of citizens on public occasions must be eliminated. The true test of what has been accomplished is the musical ability of the graduates from the High school.

The pupil entering the High school should be so familiar with the elements and theory of sight-singing, and general musical culture, that he can at once enter into the study of master-pieces in choral music. The results of this application to the study of such master-pieces, if practically and enthusias-

tically conducted, will prove to be mental assets of imperishable worth which can be called upon at any time and in any walk of life. Since the High school forms the link between the theoretical study of music, the choral society and the choir singer, too much emphasis cannot be placed on the necessity of having the pupil well grounded in the elements of sight-singing before entering the High school, that the work of the latter shall not be hampered by the study of the rudiments.

These are the principles of our course in music. How well have we succeeded? The products of the High school must answer the query.

In the last few years the High school has given a series of public concerts at which some of the best compositions of recognized masters have been produced. Last May the choral class was invited to give one of the three concerts of the music festival in conjunction with the Nashua Oratorio Society. The works sung by the High school chorus at that time were Gounod's "Gallia" and Bruch's "Fair Ellen," two master-pieces in their line, and some part-songs. The class was assisted by the following New York and Boston soloists, namely, Miss Anita Rio, soprano; Dr. Ion Jackson, tenor; Mr. Arthur Beresford, bass. Miss Anna L. Melendy was the pianist and the New Hampshire Philharmonic orchestra, Mr. Henri G. Blaisdell, concert-master, furnished the accompaniments. The work of the chorus at that time was highly praised by the musicians taking part and by many others. Special comment was made on the proportionate balance of the parts, and on the goodly number of fine tenor voices.

This year's choral class is the largest in the history of the school, numbering 204, over 75 per cent. of the pupils in the school. (Music being an elective subject.) The works in preparation are an oratorio, "The Seven Last Words of Christ," composed by Theodore Dubois, and some part-songs. These will be given at the music festival in May with the assistance of eminent soloists and an orchestra.

The material used in the grades below the High school is a

"coat of many colors." The best public school music courses, the "Educational Course," the "National Course," the "Natural Course," the "Modern Course," have been drawn upon and the result is an outline of work as near ideal as conditions will allow. The material has been selected after careful study of the needs of each grade, and in each case a book particularly suited for that grade is used.

From the kindergartens to the ninth grades the entire force of teachers has manifested unbounded interest and the results have been exceedingly gratifying.

Many supervisors and musicians of note have visited our schools and have said many words of commendation of the course that is being pursued in the schools of Nashua.

The substantial manner in which the Board of Education has maintained our work by supplying us with the best material published has been a great aid in carrying out this very important and exacting field of education.

To you, Mr. Superintendent, I feel grateful for the alert interest you have manifested in my work, and the support you have given this department.

REPORT OF DIRECTOR OF DRAWING.

James H. Fassett, Superintendent of Schools:—

DEAR SIR:—It gives me pleasure to say that in my judgment the work as a whole, in my department, has been more satisfactory and shown better results during the first half of this year, than at any other time in the three years and a half that I have been here.

As the teachers become more skillful in teaching the different kinds of work that have taken the place which was once occupied exclusively by outline pencil drawing, they become interested, and enthusiastic, where at first they were doubtful and discouraged. The change is immediately shown in the results obtained from the children.

I believe that there is every reason to expect far greater improvement in the future.

The only important change in the course is the introduction of color work in the fourth, fifth and sixth grades. All the other grades were provided with either colored pencils or paints and now that these three grades have paints I am able to plan a systematic study of color to extend through all the grades.

With the permission of the Board of Education the "Horace K. Turner Free Traveling Art Exhibit" was held in High school hall during the afternoons and evenings of December 11th, 12th and 13th. The exhibition consisted of nearly three hundred reproductions of famous pictures. I believe that the opportunity of seeing these pictures afforded to the school children will be of far reaching benefit. Over eleven hundred persons, chiefly children, visited the exhibition.

The proceeds, after deducting expenses, were a little over \$275.00. The pictures that will be bought with this money, with those that we already have, will make the school rooms very attractive.

I should like to thank the Board of Education for allowing us the use of High school hall and also to join with the teachers in extending thanks to the people of Nashua for the generous way in which they patronized the exhibition.

Respectfully submitted,

ELIZABETH L. BUCKINGHAM.
